

# My messages, *my way.*

**At Last, A Tool That Organizes  
Messages For Parents and Staff.  
*And it helps senders, too.***

You know your One Call Now messages are important, and so do the parents and staff who get them. They usually contain need-to-know dates and times and often have information that needs to be shared. Some are urgent and many need to be referenced again. From marking their calendars to keeping others informed, most messages require action—extra steps for them.

## **THERE'S AN APP FOR THAT!**

My Call Now is a FREE app that turns extra steps into little taps. Parents and staff just tap to add entries to their calendars. Just tap to pass along any forward-enabled messages. It takes the hassle out of sorting through messages, too. When important One Call Now messages are delivered, they can get lost in the accumulation of daily in-coming communications. My Call Now automatically stores all One Call Now messages—phone, text, push and email—in one convenient app to help parents and staff access—and act on—their important messages.

**One Call  Now**

When important One Call Now messages are delivered, they can get lost in the accumulation of daily in-coming communications. My Call Now automatically stores all One Call Now messages—phone, text, push and email—in one convenient app to help parents and staff access—and act on—their important messages.

| WITH MY CALL NOW:   | WHY YOU'LL LOVE IT:  |
|---|--|
| Parents and staff can update their own contact information  | Keeps your contact list up to date and saves you time, One Call Now automatically notifies you of changes to your contact list |
| Parents and staff just tap to add entries to their calendars  | Convenient and reduces: confusion, incoming office calls, no shows, missed dates and non-compliance                            |
| Senders can allow those who receive the messages to forward them  | Makes it easy for families, clubs and groups to stay informed  |
| Messages are saved in one place for future reference  | For fast retrieval and referencing   |
| In addition to normal message delivery, a red indicator on the My Call Now icon signals the delivery of a new One Call Now message  | Parents and staff can quickly spot important messages  |
| Parents and staff have the option to receive text message—push notifications— through the app rather than the traditional channels: phone call, MS text message and email | Great for those with limited data plans  |
| Messages from multiple One Call Now senders (work, schools, church) are automatically organized in separate groups  | Makes message management fast and easy   |
