What do we need to enhance our students' classroom experiences?

Instructional time focused on student engagement and best practices

- Increased cooperative learning
- Time for extension, hands-on activities
- Workshop model of instruction

What do we need to enhance our students' classroom experiences?

Time for teachers to develop and reflect on practice and focus on the needs of students

- Required Professional Learning Communities
- Collaborative –common planning
- Data Team Process

What do we need to enhance our students' classroom experiences?

Enhanced student/teacher relationships

- Decrease number of students assigned per semester to a teacher
 - Time for better feedback
 - Time to get to know students better
 - Time to better conference/communicate with parents

What do we need to enhance our students' classroom experiences?

Providing students time to focus on fewer courses at one time and opportunities to take additional course offerings

- Only 2 core academic courses per semester
 - Could reduce # of assessments taken per day
 - Could reduce amount of homework/projects at a time
- 32 credit opportunities vs 28 credit opportunities
 - Remediation, Credit Recovery
 - Elective opportunities
 - Additional Academic Core and MOWR

What do we need to enhance our students' classroom experiences?

District resources allocated to best support instructional programming

- One example - a balanced assessment calendar
 - Decreases number of State Assessments students take at a time
 - Frees up labs tied up with testing
 - Allows for integration of programs such as YouScience or use of labs for instructional purposes

How do you support your student?

Spring Course Selection

- MYAP Online Graduation Plan
- Consider additional electives
 - Additional pathway
 - Additional academic elective
 - MOWR
- Parent Night Opportunities at Local School
- MOWR Summit at Chattahoochee Tech – March 9th
