

Financial Efficiency Star Rating Summary Brief 2017

The Financial Efficiency Star Rating, FESR, utilizes a three-year average of per pupil expenditures and College and Career Ready Performance Index (CCRPI) scores to determine the district rating, and the most recent year to determine the school rating. The ratings are displayed as supplemental information to CCRPI scores.

The FESR applies a scale of one-half star to five stars, in which a rating of one-half star designates a high-spending district or school with a low CCRPI and a rating of five stars designates a low-spending district or school with a high CCRPI. The FESR is designed to provide information on the relationship between per pupil expenditure (PPE) and academic achievement. The FESR should be one measure that a user evaluates in conjunction with all other information provided for each school and district.

District-level Financial Efficiency Star Ratings have been awarded since FY2015. For FY2017, the district's rating was 4 stars. Only 5 school districts with a student population over 10,000 scored higher. School-level Financial Efficiency Star Ratings were provided beginning FY2017. For the Paulding County School District, 7 of our schools earned a rating of 2/2.5, 14 schools earned a rating of 3/3.5, 11 schools earned a rating of 4/4.5 and 1 school earned a 5 star rating. It is important to note that many things impact school-level efficiency ratings, including the size of the school, participation in Federal programs and the level of support provided by student services.

Financial Efficiency Star Ratings 2017

Number of Star Ratings By Level

	1/1.5 Star	2/2.5 Stars	3/3.5 Stars	4/4.5 Stars	5 Stars
