

## Using Quizlet with Canvas

- Open the course you want to use Quizlet with.
- Add the Quizlet LTI app to the Rich Content Editor toolbar.
  - Click **Settings** in the course navigation pane.

- Click the **Apps** tab.

- Search for Quizlet in the Filter by name field; then click on Quizlet.

- Click **Add App**.

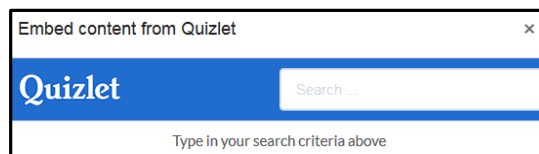

- Click Add App in the next window to accept the default app name.

- Go back to the Canvas page and click Edit.
- Place the cursor where you want the Quizlet to go.
- Click the Quizlet icon in the Rich Content Editor toolbar.

- Enter a subject in the search field.

- If desired, preview the set by clicking on the cards.
- Click the **Embed** drop down arrow and choose an embed size.
- The Quizlet is now embedded on your Canvas page.
- Save the Canvas page.
