

# Annual Title I Spring Planning Meeting

It's that time of year again, when we look back and evaluate various programs and practices that have been in place this year related to family-school partnerships and set goals for the upcoming school year. Please join us for the opportunity to jointly develop school and district Title I Parent & Family Engagement Plans, budgets, family-school compacts, as well as provide input for building staff capacity for the 2019-2020 school year. Parent/guardian input provided at this meeting and other opportunities that took place throughout the school year (including the recent Annual Title I Parent Survey) will be incorporated into plans for the new school year. Additionally, you will have the opportunity to hear from consultants about the power of reading and writing connections. We look forward to meeting with you, and to continue our partnership for student success!
