

HOW TO ACCESS 2021-2022 GMA TEST RESULTS

Beginning in the 2020-2021 school year, the Georgia Department of Education (GADOE) transitioned from providing paper copies of students' state assessment results to providing a digital copy using GADOE's Statewide Longitudinal Data System, or SLDS. By using the Infinite Campus Parent Portal, students and parents/guardians will be able to view state assessment results.

Georgia Milestones End of Grade Assessment for elementary students has been posted in Parent Portal. Students that completed a Georgia Milestone End of Course Assessment should find their score in the same location. The results from last spring's Georgia Alternative Assessment, however, are not expected to post until September (a specific date has not been provided at this time).

Again, by logging into the Infinite Campus Parent Portal account, students and parents/guardians will be able to view these assessment results. In the portal, you will be able to see a breakdown of the results, and you will have access to a PDF version of the regular results report that GADOE used to provide each year. Results from any prior administrations of state assessments completed by the student can also be viewed.

To assist students and parents in navigating to the correct location inside the Infinite Campus Parent Portal, we are providing the attached step-by-step directions. If you do not have access to your student's Infinite Campus Parent Portal, parents and guardians should visit the following web page: Parent Portal / Parent Portal Support (paulding.k12.ga.us)

If you have any questions about your student's individual score report once they are posted by GADOE or are unable to access the results in Parent Portal, please call the school and ask to speak to our school counselor, Ms. Lee.
