### **Paulding County School District's CCRPI Scores Show Upward Trend**

(Dallas, GA) – Paulding County School District's CCRPI scores show improvements for the district and at all levels, continuing a four year trend of increasing scores.

The District increased its score in 2017 by 1.4 points (77.5), up from 76.1 in 2016. That exceeds the State's score of 75 by 2.5 points.

The CCRPI score for all three levels (elementary, middle and high) has increased for the past two years. All three levels remain above the state. PCSD's elementary score increased to 75.4, while the State elementary score is 72.9. Our middle school score of 77.4 is 4.4 points above the State middle school score of 73. The District's high school score of 77.5 exceeded the State high school score of 77. Twenty-one (21) schools increased their school CCRPI score, with eight schools increasing their score by more than five points.

The College and Career Ready Performance Index (CCRPI) is Georgia's annual tool for measuring how well schools, districts and the state itself are preparing students for the next educational level. The CCRPI includes four main components: Achievement, Progress, Achievement Gap, and Challenge Points. These components, encompassing multiple indicators, are combined for a total CCRPI score on a scale of 0 to 100, with a possibility of 10 additional points. The CCRPI also reports other information, such as the performance of student subgroups, school climate, and financial efficiency status.
