READING INVENTORY

- *The Reading Inventory* is a low-stakes, classroom-based assessment designed to evaluate students' reading ability, monitor their reading progress, and match students to books at their reading level.
- *The Reading Inventory* is taken on a computer and lasts about 20 minutes. The types of questions a student receives and the results that are reported are based upon the student's grade level and reading level.
- The results of a student's *The Reading Inventory* assessments are used in a number of ways. First, a student's score on the test is used to determine the student's reading ability compared to grade-level performance standards. These determinations can help tailor appropriate reading instruction and set goals. The results of subsequent *The Reading Inventory* tests are then used to monitor progress over time. Student results are also used to match students to texts at their reading level, which helps to make reading rewarding, constructive, and enjoyable.

- Test Administration – 4 times a year (August, October, January, May)

DIBELS (DYNAMIC INDICATORS OF BASIC EARLY LITERACY SKILLS)

DIBELS Fluency is an assessment our teachers will use to monitor student fluency progression.

DIBELS Benchmarks will be conducted two times a year (Fall, Winter, Spring) – Students read three fluency passages and receive the median score

DIBELS Progress Monitoring will be conducted every 3 weeks after the first benchmark.

Student DIBELS data will be used to inform instruction.

WHAT IS THE PURPOSE OF GEORGIA MILESTONES?

- The Georgia Milestones Assessment System is designed to provide information about how well students are mastering the state-adopted content standards in the core content areas of English Language Arts, mathematics, science, and social studies.
- Georgia Milestones is designed to provide students with critical information about their own achievement and their readiness for their next level of learning – be it the next grade, the next course, or endeavor (college or career).
- Informing parents, educators, and the public about how well students are learning important content is an essential aspect of any educational assessment and accountability system. Parents, the public, and policy makers, including local school districts and boards of education, can use the results as a barometer of the quality of educational opportunity provided throughout the state of Georgia.
- Georgia Milestones serves as a key component of the state’s accountability system – the College and Career Ready Performance Index (CCRPI).

Welcome to Experience Online Testing Georgia!

This practice site lets students see what testing online is like. Parents and educators are welcome to try it too. The items on the demonstration tests are general and are organized into three grade bands: Grades 3 – 5, Grades 6 – 8, and High School in the content areas of English Language Arts, Mathematics, Science, and Social Studies. The items do not necessarily represent the specific grade-level content that students learn daily in their classrooms. Included in this site are examples of new types of test items that are being field tested this spring. Items that are field tested do not impact the scores of students. The primary purpose is to let students experience, firsthand, the functionality of the online testing platform. The sample tests are not graded, so have fun!

Georgia Milestones Assessment System

The Georgia Milestones Assessment System (Georgia Milestones) is a comprehensive summative assessment program spanning grades 3 through high school.

Georgia Milestones measures how well students have learned the knowledge and skills outlined in the state-adopted content standards in English Language Arts, mathematics, science, and social studies.

Students in grades 3 through 8 take an end-of-grade assessment in English Language Arts and mathematics while students in grades 5 and 8 are also assessed in science and social studies. High school students take an end-of-course assessment for each of the ten courses designated by the State Board of Education.

Features the Georgia Milestones Assessment System include:

- open-ended (constructed-response) items in English Language Arts and mathematics (all grades and courses);
- a writing component (in response to passages read by students) at every grade level and course within the English Language Arts assessment;
- norm-referenced items in all content areas and courses, to complement the criterion-referenced information; and
- transition to online administration over time. The administration considered the primary mode of administration and paper-based administration until the transition is complete.

What is the purpose of Georgia Milestones?

The Georgia Milestones Assessment System is designed to provide information about how well students are mastering the state-adopted content standards in the core content areas of English Language Arts, mathematics, science, and social studies.

Importantly, Georgia Milestones is designed to provide students with critical information about their own achievement and their readiness for their next level of learning – be it the next grade, the next course, or endeavor (college or career).

Informing parents, educators, and the public about how well students are learning important content is an essential aspect of any educational assessment and accountability system. Parents, the public, and policy makers, including local school districts and boards of education, can use the results as a barometer of the quality of educational opportunity provided throughout the state of Georgia.

As such, Georgia Milestones serves as a key component of the state's accountability system – the College and Career Ready Performance Index (CCRPI).

ITEM 5: EXTENDED WRITING-RESPONSE

WRITING TASK

Movies from the late 1800s and early 1900s are very different from the movies that can be seen and heard today. Movies made long ago did not have sound.

Think about the ideas in the two passages. Then write an **informational/explanatory essay** explaining how introducing sound changed the experience of watching movies.

Be sure to use information from BOTH passages as you write an **informational/explanatory essay**.

Writer's Checklist

Be sure to:

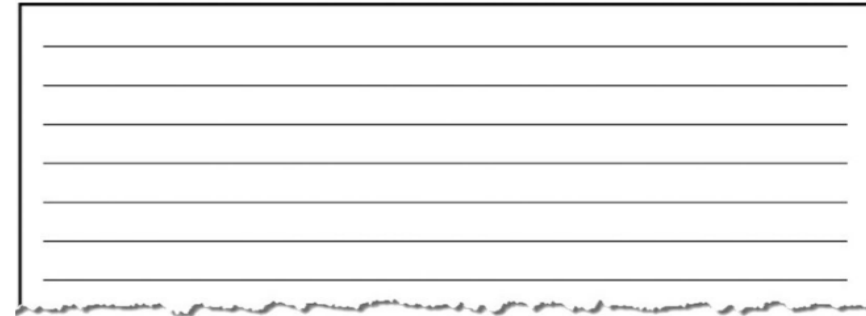

- Introduce the topic clearly, provide a focus, and organize information in a way that makes sense.
- Use information from the two passages so that your essay includes important details.
- Develop the topic with facts, definitions, details, quotations, or other information and examples related to the topic.
- Identify the passages by title or number when using details or facts directly from the passages.
- Develop your ideas clearly and use your own words, except when quoting directly from the passages.
- Use linking words to connect ideas.
- Use clear language and vocabulary.
- Provide a conclusion that supports the information presented.
- Check your work for correct usage, grammar, spelling, capitalization, and punctuation.

Now write your informational/explanatory essay on your answer document. Refer to the Writer's Checklist as you write and proofread your essay.

5. Writing Task (Write your essay here.)

Be sure to:

- Introduce the topic clearly, provide a focus, and organize information in a way that makes sense.
- Use information from the two passages so that your essay includes important details.
- Develop the topic with facts, definitions, details, quotations, or other information and examples related to the topic.
- Identify the passages by title or number when using details or facts directly from the passages.
- Develop your ideas clearly and use your own words, except when quoting directly from the passages.
- Use linking words to connect ideas.
- Use clear language and vocabulary.
- Provide a conclusion that supports the information presented.
- Check your work for correct usage, grammar, spelling, capitalization, and punctuation.

Scoring Guide

Item 5 Information

Standards:

ELAGSE4W2. Write informative/explanatory texts to examine a topic and convey ideas and information clearly.
ELAGSE4L1. Demonstrate command of the conventions of Standard English grammar and usage when writing or speaking.
ELAGSE4L2. Demonstrate command of the conventions of Standard English capitalization, punctuation, and spelling when writing.

Item Depth of Knowledge: 4

Extended Thinking
Student conducts an investigation, needs time to think and process multiple conditions of the problem or task.

GMA WRITING – EXEMPLAR A

Have you ever wondered how sound in movies changed the lives of many people? If you did, come along with me and I'll tell you the answer.

First of all, silent films had absolutely no sound at all. So instead, to set the mood there was sometimes music playing in the background. According to the text, there were many action scenes like swordfights, so the audience didn't really need sound anyways. The actors in the story also learned to tell the story with face expressions and body movement.

As technology got more and more advanced, movies also got better. Starting in 1903, title cards were invented. From the reading, I know that they're frames of film with words to hold dialogue or important information needed to understand the story line of the movie. These kinds of films were entertaining to us for almost 50 years.

The author wrote that by the early 1930s, most movie studios had switched from silent films to "talkies". As you might guess, this was a term that was used for movies with sound. This change was very exciting for some people. New jobs opened up in moviemaking. Of course, new actors got hired. Musicals hired more singers and dancers. New sound crews were also brought in to fix the microphones. Sound effects also got into use.

Who would watch a horror movie with no sound? Maybe some people, but not a lot. They're not fun until you hear screams, boos, thunder, and footsteps, right? But these sounds were not recorded while the movie was being filmed. They were recorded on a sound stage later, or a place where sounds are only recorded. The person who makes these sounds is called a foley artist. They make sounds out of everyday things, such as a coconut or gloves.

"Talkies" changed the lives of millions of people. New jobs, entertainment, and true fun was introduced. It took a long time to accomplish, but it was more than people expected. It was something incredible that happened in the 1930s.

GMA WRITING – EXEMPLAR A SCORE AND COMMENTARY

Response Scores:

Idea Development, Organization, and Coherence: 4

Language Usage and Conventions: 3

DOC: 4

- An effective introduction attempts to grab the reader's interest and introduce the topic ("Have you ever wondered how sound in movies changed the lives of many people?").
- The student groups related ideas together to give some organization to the writing (intro, a paragraph about the visuals actors used to make up for the lack of sound from the actors' perspectives, a paragraph about title cards replacing dialogue, a paragraph about the general changes "talkies" brought, a paragraph about sound effects and how they are made, conclusion). The topic of each paragraph changes and evolves logically to show the evolution of the movie-going experience.
- The student more than effectively develops the response with multiple facts, concrete details, and examples ("No sound," "music playing in the background," "learned to tell the story with face expressions and body movement," "title cards," "frames of film with words," "were recorded on a sound stage later," "The person who makes these sounds is called a foley artist").
- The response effectively uses linking words and phrases to connect ideas and information ("First of all," "As technology got more and more advanced").
- The student uses precise language and domain-specific vocabulary ("absolutely no sound at all," "make sounds out of everyday things").
- The student provides a strong concluding statement.

LUC: 3

- The response has clear and complete sentence structures. Appropriate range and variety is demonstrated. The student uses simple, compound, and complex sentences.
- No errors in usage or conventions interfere with meaning.

GMA WRITING – EXEMPLAR B

You may all think movies may have sounds. I used to think that to but, if you watch movies from the 1800s to 1900s you know what i'm talking about. Movies don't always have sound though, that's why i'm telling you about silent films and films with sound.

Silent films have been around only from the 1800s to the 1900s. The reason why silent films are silent is because they want you to hear the sounds through your mind. Also, there are actors and actress who can make faces to show the film or body language. Since there is no sound, pianoist or live bands play because it can set the mood for the movie.

But, don't forget films with sound. Films with sound are suppose to make the movie more realistic. Like you could take a cut in half coconut a click the together to make a sound of a horse galloping or punching a punching bag to make a punching sound. This helps you not just see the film but hear it and picture it in your mind. A Foley artist makes the sound on a sound stage.

Well, it depends on what kind of movie YOU can see or hear. But, these two films are both truly amazing films.

- The student introduces the topic but does not do so effectively (“You may all think movies may have sounds,” “Movies don’t always have sound though, that’s why i’m telling you about silent films”).
- The student develops the topic with some facts, definitions, and details (“actors and actress who can make faces to show the film,” “take a cut in half coconut a click the together to make a sound of a horse”).
- The response groups like ideas together (intro, silent films, sound effects, conclusion).
- Some domain-specific precise language is used (“cut in half”).
- The student provides a conclusion (“Well, it depends on what kind of movie YOU can see or hear. But, these two films are both truly amazing films”).

LUC: 2

- The response has complete sentences with some variety. The sentence structure is mostly correct, though some structures are repetitive.
- Minor errors in spelling, usage, and conventions have little effect on meaning (“i’m,” “a click the together,” “see or hear. But, these two films”).

GMA WRITING – EXEMPLAR C

Introducing sound changed the experience of watching movies because first the movies had no sound at all except for pianos and live bands. The people in the movie had to make face expressions and had to do stuff like sword fights. Then sound movies were made with the help of coconuts, sand bags, and gloves. The sound of the coconuts made it sound like horse hooves. The sand bag made it sound like punches. The gloves made it sound like bird wings. The people couldn't hear in the older movies but they can in these movies. Sound makes things better.

- The response attempts to introduce a topic (“Introducing sound changed the experience of watching movies”).
- The student attempts to develop the topic with a few details (“movies had no sound at all except for pianos and live bands,” “do suff like sord fights”). Some details are not overly effective or relevant to the topic (“coconuts made it sound like horse hooves,” “gloves made it sound like bird wings”).
- The student ineffectively groups ideas together. Like ideas are typically grouped together (what they did in silent movies because they had no sound, how they make different sounds in movies with sound), but the connection between the different groups isn’t always clear.
- A concluding statement is present (“The people couldn’t hear in the older movies but they can in these movies. Sound makes things better”).

LUC: 2

- The response has complete sentences with some variety, though there is an overreliance on repetitive, simple sentences (“The sand bag made it sound like punches. The gloves made it sound like bird wings”).
- Some minor errors in usage, spelling, and conventions are present, but they do not have a significant effect on meaning (“except,” “suff,” “sord,” “Sound makes things better”).
