

Parent/Observer Accounts

Parents can register for a Canvas account to observe their student(s) and their interactions within a course. Observers cannot submit work on behalf of the students they observe, but they can see student grades, assignments and events, and course interactions. *To observe a student, you must get a pairing code from your student.*

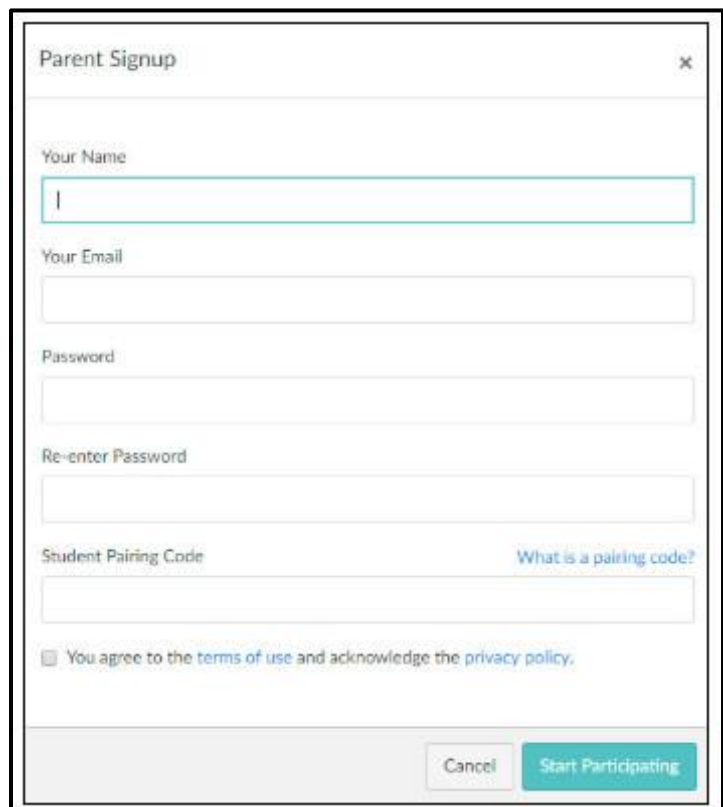

Observers can also view student information through the Canvas Parent app, though Canvas Parent accounts are separate from web accounts created in Canvas.
