# NEW HOPE Education Center

## Summer School 2021

Paulding County School District's 2020-2021 summer school provides an opportunity for all currently enrolled Paulding County School District students in grades 8-12 to recover high school level credits attempted throughout the school year. Opportunities for new credit are available with prior approval. All courses are offered in an online format via PLATO software with our teachers/facilitators.

All grades for summer school will be available to the districted school once the summer school session has ended.

#### Registration:

- Registration must be approved and completed by the school counselor or NHEC staff.
- Tuition for recovery credit is free for students. Paulding County School District will support summer school costs for this summer only due to atypical adjustments in scheduling and learning this school calendar year.
- Tuition for new credit is \$450 per 1 credit and \$225 per half (0.5) credit to be paid in the form of credit card, debit card, or personal check.

Payment for a new credit course is required at the time of registration. Refunds are provided prior to June 7, 2021.

• All registration after June 3<sup>rd</sup> will occur at NHEC.

Site: This summer session is virtual. Students will complete all courses off site. At the time of registration, students will be given further instructions for completing summer school virtually. Registration will take place at the address below after June  $3^{rd}$ .

New Hope Education Center 4555 Dallas Acworth Highway Dallas, GA 30132 Phone 770-445-2656

Summer Session Information: June 3, 2021 — July 1, 2021

EOC Testing: EOC Testing will take place June 29<sup>th</sup>, June 30<sup>th</sup>, and July 1<sup>st</sup>. The weight of the EOC tests is 0.01%. EOC tests will be administered for students enrolled in American Literature, U.S. History, Algebra I, and Biology.

Virtual Learning: All summer school students will be virtual learners. All courses will be completed off site. Summer school students will have access to a virtual instructor via Zoom video conferencing Monday through Thursday from 8:00 a.m. to 12:00 p.m.

#### NCAA Eligibility:

• NHEC summer school meets NCAA requirements for student athletes. Please note that student athletes are not permitted to "test out" of any units and must complete the entire course. It is paramount that student athletes inform their counselors that they require NCAA eligibility.

## NEW HOPE Education Center

### Summer School 2021

#### **FAQ:**

- 1. How long is summer school?
  - June 3<sup>rd</sup> July 1<sup>st</sup>
- Can students take new credit?
  - Yes, but on a very limited basis. Counselors must communicate with NHEC prior to registration.
- 3. What about NCAA eligibility for student athletes?
  - We can provide NCAA classes during the summer. Students in this situation must complete the
    entire course as a new credit and cannot end prior to the last day of summer school.
- 4. What about virtual status?
  - All students will complete summer school courses at home online via Plato software program.
     Students will not come to a school building to take any summer school courses. Students will have access to an instructor Monday through Thursday (8:00 a.m. to 12:00 p.m.) via Zoom video conferencing.
- 5. How many classes can a student take?
  - Students may register for either 0.5 or 1.0 credit. If a student has completed a course by June 17, the student may register for a new class. The additional course registration will occur at NHEC. If it is a new credit course, payment must be made at the time of registration.
- 6. What about End of Course (EOC) testing?

EOC Testing will take place June 29<sup>th</sup>, June 30<sup>th</sup>, and July 1<sup>st</sup>. The weight of the EOC tests is 0.01%. EOC tests will be administered for students enrolled in American Literature, U.S. History, Algebra I, and Biology.

- 7. When are the grades sent to the school?
  - Because NHEC is a PCSD program, grades are available to schools once summer school ends.
- 8. Are teachers available to help students?
  - Yes. We have certified teachers that are available to reteach and support students with their coursework via Zoom video conferencing. All student work is done on computer.
- 9. Is there anything else that I need to know?
  - Summer school is a relatively brief but concentrated school semester. Due to the length of summer school, students should expect to spend 4-8 hours per day working on their courses. We have had great success with our students successfully completing summer school each year. The student controls the pace of the coursework within the summer school time frame. Teachers are available via Zoom video conferencing to help students navigate successfully through summer school.
