

Capital Improvements PROJECT UPDATE

RENOVATION

Hiram High School

CONCEPT
PLANNING
CONSTRUCTION
COMPLETED

HISTORY & BACKGROUND

- Home of the Hornets was originally established in 1925, merged to create Paulding County High School in 1968, and was reestablished at its present location in 1999
- The facility has had two additions completed in 2007 and 2009
- School sits on 69 acres with 254,363 square feet housing 89 instructional units including general classrooms, CTAE classrooms and athletic facilities
- HHS houses the Hiram Academy of Computer Science (HACS) which is an open-school choice program for PCSD

DESCRIPTION

This is the first major renovation and modification of the 1999 building and will include work within the additions as well. Scope of work includes:

- New ceiling grid and lighting throughout the building
- New drinking fountains
- Paint interior of building throughout
- Replacement of carpet throughout
- Restroom modernization
- Security, fire alarm and intercom upgrades
- Energy conservation and HVAC upgrades
- Roof butter and buttoning
- Remodeling of two CTAE Labs: Automotive, Sports Medicine, Audio Visual and Engineering
- Exterior upgrades to front entrance including raised walkway, additional flagpole, and landscape beautification
- Additional concrete sidewalks around facility to better pedestrian traffic flow

TIMELINE

- Project started in 2021
- Majority of work occurred during summer months of 2021 and 2022
- Completed Fall 2022

PROJECT UPDATES

Project was substantially completed in July 2022

Final touches included:

- Accent striping throughout the building
- Finishing outdoor canopies
- Finishing landscape fencing

Entire project completed Fall 2022

SAFETY & SECURITY

- Fire alarm and life safety systems updated during project
- Additional site security fencing provided
- Upgraded exterior lighting
- Completed a raised crosswalk for building entrance
- Added an additional generator to continue major functions during emergency situations
- Alertus Emergency Communication system installed

TRANSPORTATION & TRAFFIC

- Facility parking and drive received asphalt covering to repair
- New striping to maintain traffic flow on the campus
