

Let's Make Plans for Student Success!

2018 - 2019

It's hard to believe that we are nearing the end of this school year! This is the time when we look back and evaluate/assess various programs and practices that have been in place this year related to family-school partnerships and set goals and make plans to work together for continued student achievement in the new, upcoming school year.

Please join us for the opportunity to jointly develop school and district Title I Parent & Family Engagement Plans and budgets, and our family-school compacts for the 2018-2019 school year. Parent/guardian input provided at this meeting, in addition to other opportunities that took place throughout the school year (including the recent Annual Title I Parent Survey) will be incorporated into plans for the new school year.

We look forward to meeting with you, and to continued partnership with you for student success!
