Allgood's Summer Boot Camp!

(Bringing On Our Thinking)

Students complete different activities in the summer. Packages were sent home in May, and a calendar is also posted on the school website.

Level 1: 10 challenges completed- Necklace and Charm

Level 2: 15 challenges completed- Bracelet

Level 3: 20 challenges completed- Snow Cone Party

Level 4: 25 challenges completed- Plush Animal Bookmark

Level 5: 30 challenges completed- \$3 Book Fair coupon

Level 6: 35 challenges completed- T-Shirt and Pizza Party

All BOOT CAMP envelopes and calendars must be turned in by Friday, August 3.

A fun way to keep math skills sharp over the summer is by joining the Summer Math Challenge, a FREE math-skills program designed for students who have just completed first through eighth grade. The Summer Math Challenge can help your child retain math skills learned during the school year and keep them on the path towards college and careers.

How It Works

For six weeks in the summer, parents receive daily emails with fun activities and links to educational resources. When the program ends, parents can print an award certificate to celebrate their child's summer math accomplishment!

1. Go to Quantiles.com/summer-math to enroll your child.
2. Starting Monday, June 18th, check your inbox for daily emails with fun activities and resources.
3. Visit Quantiles.com/summer-math every day to read about weekly math concepts and earn badges.

Summer Math Challenge Completion: \$5 Gift Certificate to the School Store. (Must print and turn in award certificate to show completion of the program by Fri., August 3).
