

MECHATRONICS/MANUFACTURING PATHWAY

Interested in receiving college credit and certification to work in a high need field while still in high school?

Paulding College & Career Academy

Paulding College & Career Academy (PCCA), in conjunction with Chattahoochee Technical College offer several dual-enrollment courses, open to all high school Manufacturing/Mechatronics Pathway students. Courses include DC Circuit Analysis, AC Circuit Analysis, and Industrial Wiring. Students will earn an Industrial Electrician Certificate. An important, must attend meeting for students and parents will take place at PCCA on Thursday, February 27. Please attend to learn more about dual enrollment requirements, course requirements, and class availability. Email questions to jgroberts@paulding.k12.ga.us
