

Welcome to the 22-23 school year! My name is Sarah Wetherington and I am the new STEM teacher here at New Georgia Elementary. I will be ½ time this year which means more STEM for all students! I am so excited to provide your children with hands-on, engaging activities that go along with STEM which help to boost their engineering abilities.

Below I've listed a few items I'd love to receive by grade level. You do not have to follow this list; if there's something you already have on a different grade level than your child, that's ok! Any donation is greatly appreciated and can be dropped off at the office, given to the classroom teachers, or brought directly to my room. (please label STEM Wetherington). Thank you in advance! I am looking forward to a great school year.

Thank you for your support,
Sarah Wetherington
STEM Teacher
swetherington@paulding.k12.ga.us
